
Effective: April 1, 1995**96.00 Utility Accommodation**
96.20 Location Requirements
96.25 Breakaway Construction

Supersedes: March 1, 1992

By: Director, Bureau of Highway Operations**Page 1 of 1**

Breakaway or yielding facilities along the highway should be set as far back as feasible to prevent a pole or other device from falling onto the traveled way when struck by an errant vehicle.

Foundations beneath breakaway poles shall be flush with the ground.
