

What is the Employer Notification Program?

The Employer Notification Program is available to employers of commercial drivers participating in the Public Abstract Request System (PARS). PARS is a secure Web-based system that allows participating account holders to have instant access to driver record abstracts via Portable Document Format (PDF) images. The Employer Notification program will identify any enrolled CDL holder with recent activity on their driving record and allow the participant immediate access to the current abstract using an Internet-connected personal computer.

Who can belong to the Employer Notification Program?

Any employer who owns or leases commercial motor vehicles or assigns a person to drive a commercial motor vehicle can belong to this program. Employers of non-commercial drivers are not eligible.

What does it cost?

There are no annual fees, minimum monthly fees or enrollment fees associated with PARS or the Employer Notification program. The requestor is charged \$5 for each driver abstract request.
