

**What is charge card renewal?**

Charge card renewal is a registration renewal option available in addition to the traditional mail-in and walk-in methods of renewing. Internet charge card renewals are available for many license plate types. If your renewal card has an RRN number on it, you are eligible to use this renewal service.

**How do I use this option?**

Internet: You can use your Visa, American Express, MasterCard, or Discover Card and use the Internet to renew your vehicle's license plate. The web site address is **<http://www.dot.wisconsin.gov/drivers/vehicles/renew/online.htm>**.

Telephone: Telephone renewal was discontinued in December 2008 due to low use and high maintenance costs.

**What is the fee?**

\$1.00 per renewal, which is the cost of providing the service.

**Which plate types are eligible?**

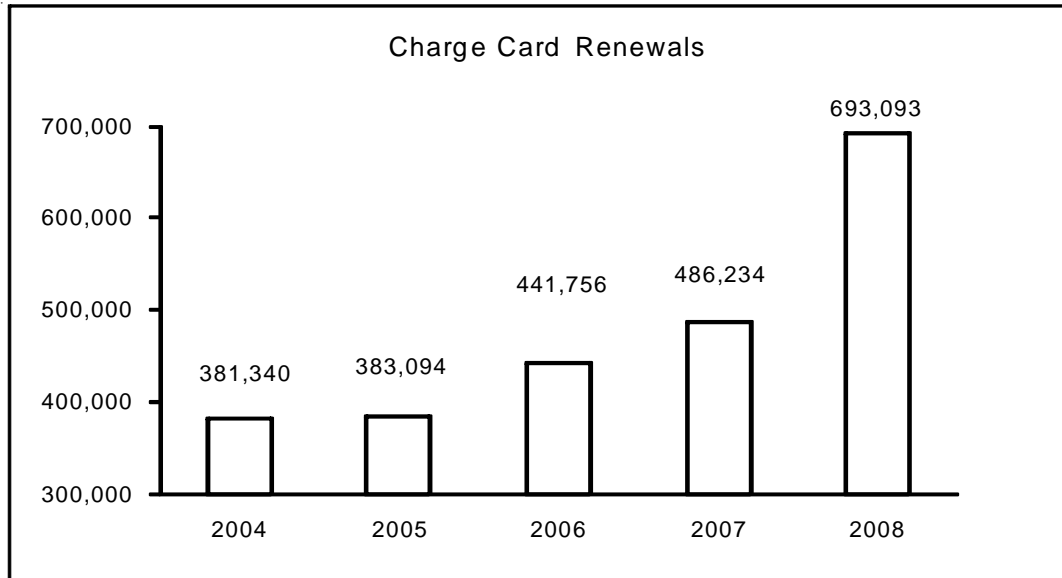

Automobiles, motorcycle/mopeds, trucks registered at 8,000 lbs. gross weight or less, farm trucks registered at 12,000 lbs. gross weight, motor homes, trailers registered at 3,000 lbs. gross weight, recreational vehicle trailers, human service vehicles and special plates for autos, light trucks and motorhomes - (Packers, Endangered Resources, Military Group, etc.).

**What are the benefits?**

Speed and convenience. You will receive your Certificate of Registration, plates, or stickers within a few days. You may legally operate your vehicle immediately upon completing the call or Internet transaction. The service is available 24 hours a day, seven days a week.
