

Wisconsin Badger TraCS

2009 - Suggestions for FAC consideration

From the 2008 TraCS User Conference

Crash

Diagram, Image Capture, and Import functions: Change verbage "Read from a file" to "Search" and "Close" to "Save and Close". Chris Fox, Wauwatosa PD

Please add a DOB field for vehicle owner. When importing into our local RMS, the DOB field is needed to verify wether the name already exists locally It prevents duplicates. Matt Jolly, Waukesha County

Add a field in the crash form or all forms that is only used for reporting. As an example, we could populate this field with "Local Reporting Zones". When we import the TraCS citations/crashes into the local RMS, we could use that field to pin map accident locations. Matt Jolly, Waukesha County

Sometimes some of the information an officer enters disapears. You'll scroll down and return or close/save the form and then return to it and the informatin you've put into it is no longer there. Laura Washer Williams Bay PD

Need to create a document/book for the crash form like the current MV4000 book. Would like the numbers to correspond with the information needed. Laura Washer, Williams Bay PD

Driver Exchange

For MV vs. Parked car - you can not put in the parked car information.

ELCI

Elci Served date: Sometimes you do not SERVE the citation the same date you Issue/print it. Can this be left blank or be allowed to change? – Laura Washer Williams Bay PD

Allow individual agencies to adjust content of "Boiler Plate" info in bottom third of violator citation to fit their own municipal requirements OR Create a text field that agencies can use. We currently have to hand out an additional sheet for this. There has to be a way to identify that info the state feels MUST be present, while still allowing space for local-specific info to be added. (Suggested last year too) Chris Fox, Wauwatosa PD

Wisconsin Badger TraCS

In addition to allowing only new violation info/court info on a replicated ticket, also need to allow change to "Agency Space", all else should be locked. Chris Fox Wauwatosa PD.

Allow for a default/drop down list for court dates or calendar that would pop up for the officer to pick from. Chad Billeb, Marathon Co SO.

Remove Bicycle Speeding Violations under 346.57(4). Chad Billeb, Marathon Co SO

After transmitting voided citation, no record to differentiate it from a non-voided citation. Perhaps add a new status called "Voided.xmited" or similar. Eric Olson, Berlin PD

The narrative is limited to a certain number of characters. When typing a narrative, you never know if you went too long until you close. Then you get told it cut off the excess words. Can you add a character counter that tells us how much more room we have left? Troy Damsteegt, North Fond du Lac PD

Spanish Version for Defendant similar to the MUNI. Troy Damsteegt, N Fond du Lac.

346.595(3) is also used for a violation of two persons on a moped. The ELCI will not validate as a class D license, which is all that is needed to operate a moped. You do not need a Class M endorsement to operate a moped. Laura Washer, Williams Bay PD

MUNI

The narrative is limited to a certain number of characters. When typing a narrative, you never know if you went too long until you close. Then you get told it cut off the excess words. Can you add a character counter that tells us how much more room we have left? Troy Damsteegt, North Fond du Lac PD

Increase font size to 12 for easier reading of pertinent violation/violator information. Kerry Krueger, De Pere PD

Warning

The word "Property" is misspelled. It shows as "Propery" on all warnings. This was submitted and not done last year. Neil Dorner, Algoma PD

Allow form to be used for local ordinance violation. Paul Piskoty, Wausau PD

Wisconsin Badger TraCS

Open up warning statute and ordinance fields to be able to enter any ordinance number or description (make an all other option that is open) Randall Lefeber, Fox Valley Metro PD

Add a narrative section, separate from the agency space that has the same options and space available as the citations or summonses.) Randall Lefeber, Fox Valley Metro PD

Alcohol

1. The Notice of intent to Revoke form automatically prints 4 copies. Can you make the informing the accused automatically print 2 copies? (PD copy and Defendant copy) Troy Damsteegt, N Fond du Lac PD

DNR Form

Add DNR Crash Form. Brandon Penzkover, LaCrosse Co SO

All Forms

Add case number area which can be auto-populated from form to form. Will not require a validation. Brandon Penzkover, Lacrosse Co SO

Last name and Vehicle searches should show 10 returns rather than just 5. Brandon Penzkover, LaCrosse CO SO

Crash and Other Forms – Would be nice if the outline of the Form Printed in dark bold print. Darker than what the entry fields are. So it makes the forms easier to read after they are printed OR The font different on the data fields entered. This would be nice for data entry purposes and for the public. As they are now everything seems to all run together and looks the same and makes data entry difficult. Tara Tessmann, Rhinelander PD

Allow “/” character to be used. We have about 1,000 addresses that have ½ as part of the mailing address. Paul Piskoty, Wausau PD

Show Court date and name on manager screen.) Randall Lefeber, Fox Valley Metro PD

Make abbreviations consistent with DOT records. For instance, right now, colors are not consistent. Tracs Gold = GLD, Black = BLK, Green = “GRN”. DOT Gold = GOL, Black = BLA, and Green = GRE.) Randall Lefeber, Fox Valley Metro PD

Wisconsin Badger TraCS

Tables

TRACS SOFTWARE

Is it possible to add a query utility to TraCS so that the officer can query TIME, NCIC, CIB, etc without having to use another application, and then export the data for the Universal MDI to use? Matt Jolly, Waukesha County

Is it possible to add messaging capabilities so that an officer can speak with another officer or their office? Something like IM or email?? Matt Jolly, Waukesha County.

NEW FORMS Suggestions

Activity Log Form. – Create a daily activity log form that includes Officer Name, Squad #, mileage, narrative of duties performed, etc. Neil Dorner, Algoma PD

Evidence/Property Form. A form which allows officers to create an evidence ID#, date/time, located/collected by, evidence collected, etc. Neil Dorner, Algoma PD
