Sturtevant, WI 53177

Telephone (414) 548-5902
FAX (414) 548-5662

Dear Director Lampark:

SUBJECT: I.D. 1032-07-05
IH94 Corridor Study
Adoption of Functional Plan
Racine/Kenosha County

Through the efforts of the Project Advisory Committee working in cooperation with the Department of Transportation the two and half year IH94 Corridor Study in Racine and Kenosha Counties was completed in December of 1996. The functional plans of the preferred alternative for each of the twelve (12) interchanges was presented at the Public Hearings held in October of 1996.

The functional plan alternatives were the next step beyond the *Land Use and Transportation System Development Plan* for this corridor as published by the Southeastern Wisconsin Regional Planning Commission (SEWRPC) dated December of 1991.

We are pleased to inform you that the preferred alternative for each interchange dated December of 1996 was approved by the Department of Transportation in June of 1997. The Interstate Access Revisions were approved by the Federal Highway Administration (FHWA) in December of 1996. The Department of Transportation HAS ADOPTED these plans as the *foot print* for the future configurations of the interchanges to the year 2020.

We look forward to the on-going relationship with the towns, villages, cities, counties and SEWRPC as we now embark on the corridor preservation phase.

Should you have any questions, please feel free to contact me or Tom Heydel, Project Manager, at (414) 548-6763.

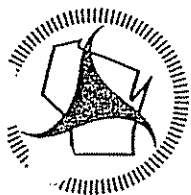

Sincerely,

A handwritten signature in cursive script, appearing to read "Les Fafard".
